WINNING LETTER

Dear AsiaSpa,

I was very impressed with your recent eco issue. I found the topics covered very informative and up-to-date and was especially interested in the article 'A guide to carbon offsetting'. I very much liked the way the eco theme was applied to all aspects of the magazine – from eco-spa recommendations to green design. Well done on a well thought-out (and gorgeous!) issue. I can't wait to see what's coming in the new year.

Best Regards,
Joy

Dear AsiaSpa,

I really enjoyed reading your Green Issue and thought the topics it raised were all extremely relevant, especially in light of today's environmental focus. The magazine managed to showcase serious issues while introducing interesting locations and glamorous new spas. Now when I plan my next spa getaway I will definitely consider one of Asia's top sustainable spas so I can reduce my carbon footprint while being pampered!

Thanks a lot!
Monique

Dear AsiaSpa,

Thanks for putting together such an informative collection of eco-related articles. I have been a fan for a long time and am always impressed by the thought and consideration that goes into each magazine. Environmental awareness is a global concern and your articles highlighted ways we could each do our part. Now I'll definitely be "thinking green" a lot more.

Cheers,
Jenifer
